User Guide

LaxMount-15W

15W MagSafe Compatible Flexible Smartphone Charging Mount

Introduction

LaxMount-15W, a MagSafe compatible wireless charging car mount, delivers lightning-fast 15W charging speeds while ensuring quick and secure magnetic alignment. Its sleek and slim design seamlessly complements your smartphone and car interior, providing a space-efficient solution. The safety chip guarantees secure charging with protection against overcurrent, overheating, over-voltage, and short-circuit issues. With a cradleless design, you can effortlessly switch between portrait and landscape modes for music or navigation, and the flexible body allows convenient adjustments for optimal viewing. Align easily and charge efficiently with LaxMount-15W, the ultimate MagSafe marvel.

Specifications

- Input: 5V/3A, 9V/3A
- Output: 5W/7.5W/10W/15W
- Wireless Charging Frequency: 110kHz-148kHz
- Wireless Charging Distance: 6mm
- Wireless Charging Efficiency: ≥75%
- Input Interface: USB-C
- Cable Interface: USB-A to USB-C cable
- Cable Length: 1m
- Weight: 121.6g
- Type of Magnets: N52
- Material Made Of: TPU+ Aluminum Alloy+ PC+ ABS+ Magnets
- RF Output Power: <=20dBm

Features

- **15W MagSafe Compatible:** LaxMount-15W MagSafe compatible wireless charging car mount aligns with your smartphone and charges your compatible devices at 15W lightning speeds.
- **Quick Magnetic Alignment**: No more awkward fumbling; the perfectly aligned magnets on LaxMount-15W snap onto your devices quickly and seamlessly, keeping them secure, even when going through bumps and turns.
- **Sleek Design:** LaxMount-15W has a sleek and slim design that perfectly complements your smartphone device and car's interior without occupying too much space.
- **Charge Securely:** The onboard safety chip in LaxMount-15W provides overcurrent, overheat, over-voltage, and short-circuit protection, so you can charge with confidence.
- **Cradleless Design:** The cradleless design allows you to set your music in portrait mode or use the navigation in landscape mode with ease.
- **Flexible Adjustment:** The body of this car mount is flexible and allows you to mount your device and adjust it to a position that suits your viewing convenience.
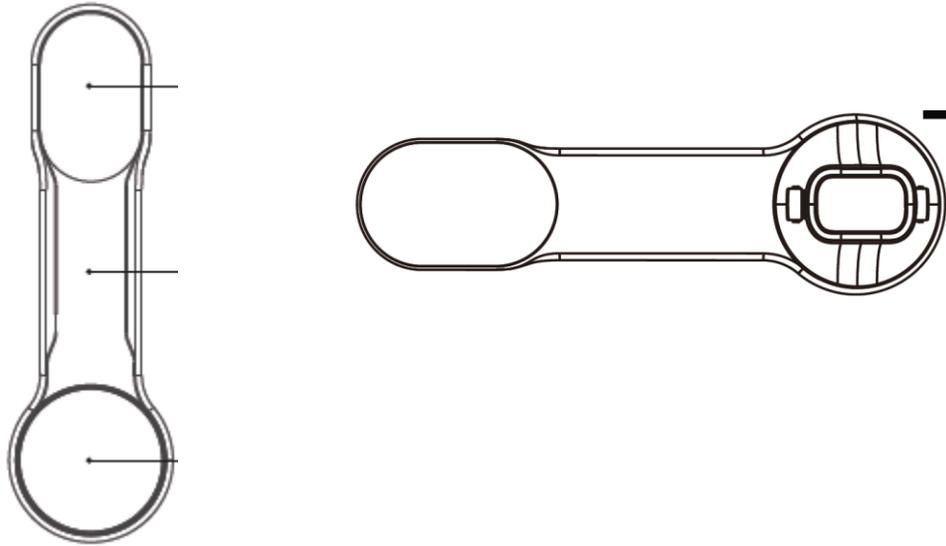

Precautions

Please read all safety instructions and warnings thoroughly before using this product. Improper use of this product may result in damage to this or attached products.

1. Wipe the product using a soft cloth and don't use solvents like benzene or alcohol.
2. Make sure the surfaces are clean and dry before sticking the 3M Velcro tape.
3. LaxMount-15W can withstand 300 bends, please try to avoid excessive bending, and please avoid bending the device 180 degrees.
4. Do not leave the dock in standby mode. Turn off the power and pull out the plug when not in use.
5. Do not store or use the product in a high-temperature environment, including intense sunlight or heat.
6. Do not operate the device inside a closed box, please make sure that enough ventilation is provided.
7. If there is any reason to believe that there is damage to the product, discontinue use immediately.

Compatibility

LaxMount-15W is compatible with all devices supporting Magnetic Charging.
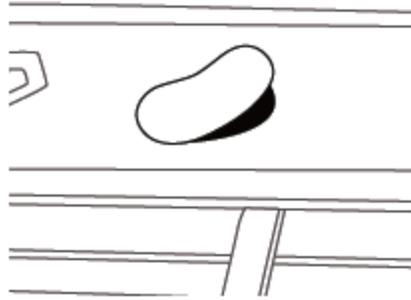

Appearance & Interface Description

1. Magnetic Charging Module
2. USB-C Charging Input ports
3. Bendable shaft
4. 3M Velcro Tape

Operation Instructions:

1. **Installing LaxMount-15W**
   - Clean the surface where you wish to install LaxMount-15W
   - Peel off the 3M protective film on the Velcro Adhesive pad and stick firmly on the desired location (console/Dashboard/ behind Car LCD screen).
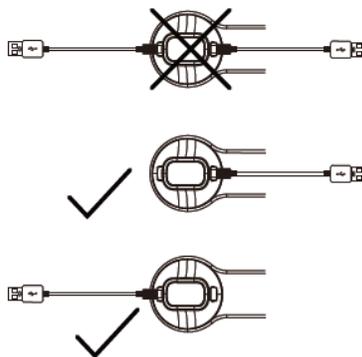

Note: it will take 24 hours for the 3M adhesive to secure.

- Bend LaxMount-15W to your desired position and place it on the 3M Velcro Tape placed earlier.

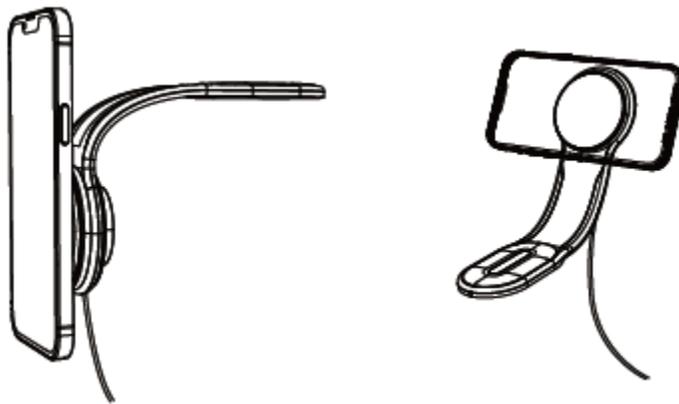

2. **Charging a Smartphone**:
   - Connect the USB-C charging cable to LaxMount-15W and the other end of the cable to your car charging adapter.

Note: there are two USB-C ports on the device, please only use 1 port when charging your device.

- Place your magnetic wireless charging smartphone on LaxMount-15W.

- The wireless charging coil aligns automatically with the wireless charging coil of your device and begins to charge.
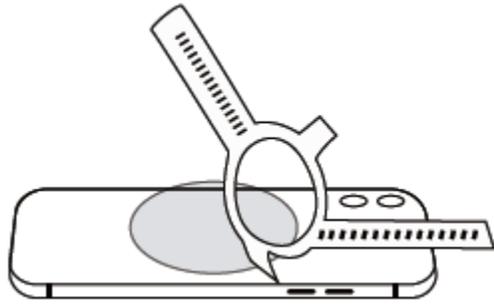

Note: A Quick Charging 3.0 adapter or an adapter with an output of 18W and higher is recommended for the best charging performance

3. Installation of Metal Ring for Non-MagSafe Phones
   - Clean the back of your Phone or Case with the provided wet and dry wipes.
   - Place the positioning tool on the back of your device to properly determine the center.

- Place the included protective film sticker on the back of your device.

- Finally, attach the Metal Ring on top of the protective film sticker.
